VERIFY YOUR AFFORDABLE CARE ACT SETUP IN GP

Microsoft has just released an update to Dynamics GP for the new 2015 federal ACA reporting requirements.

After the update is installed, you'll be able to track and review the forms and data. That way you'll be able to verify that your setup is complete and you'll be in great shape when it's time to file the forms.

Updates are available now on [CustomerSource](#) for GP 2013 and 2015. Please contact [Candace Hoffpauir](#) for more information.

WHAT'S NEW IN

Microsoft Dynamics GP 2015

Based on customer feedback and market research, Microsoft developers continue to improve Microsoft Dynamics accounting software solutions by adding desirable enhancements to each new release.

The new **Workflow Functionality** enhancement enables users to select an approval process to be completed before specific tasks can be finished (GL batch approval, payables batch approval, vendor approval, receivables batch approval, etc.).

The **Email Editing Functionality** enables users to edit and re-send email messages that have previously been sent to customers or vendors, containing sales or purchasing documents.

The **Management Reporting Navigation Integration** enhancement enables you to choose the management reporter setting used to setup financial statements and generate a list of reports you've created, which helps you quickly and easily find, print, or modify a report

For a more in depth overview of the new functionality available to you in Microsoft Dynamics GP 2015 [check out Microsoft Dynamics GP 2015 Feature of the Day blog](#).

SALESPAD®

GET YOUR SALES MOVING

Salespad Mobile GP gives Microsoft Dynamics GP users the power to manage their customers, inventory, and sales documents from the convenience of their iPhone, iPad, or Android mobile device.

- Salespad Mobile GP users can manage sales documents from anywhere.
- Customer Lookup modules let you find and view all customers in your database.
- Use SalesPad Mobile GP's Inventory Lookup feature to check your inventory to see what's in stock, in which warehouse items are stored, etc.
- View item images while creating an order.
- [And there's more...](#)

Sales are going mobile, so give [Dwight Boudreaux](#) a call at (337) 296-4837 for more information and to discuss setting up a product demonstration.
