<http://rocktonsoftware.blogspot.com/2013/08/august-16th-gpug-new-orleans-regional.html>

Please let us know if you plan to attend. Some from the south shore may be able to carpool.

WHAT'S NEW IN DYNAMICS GP 2018

Here are some of the great new features available in GP 2018:

- Print a single statement from Customer Maintenance - Now you can print a statement for a single customer from the Customer Inquiry window for that customer. The statement will use the statement format that's assigned in the Receivables Setup window.
- One payment per invoice set or one payment per-vendor - Now you can choose to make payments on individual invoices, or to choose a single payment per vendor. The choice of payment options is made in the Vendor Maintenance window. The default setting is to generate a single payment per vendor when you build payment batches using the Build Payment Batch window.
- Save select payment settings - An option that allows you to save the settings used to build a payments batch has been added to the

Mid Pay Period Rate Changes
Overtime Hours Rules
Negative Payroll Transactions

Payroll Productivity

Employee E-Mail Suite
Paycheck "what if" & Gross Ups
Calculator

Benefits Management

Leave Management
Enhanced Retirement Plans
Life Insurance Tax Calculator

*"...very quick to respond to our needs and helpful
– actually showing me what I needed to know,
instead of someone talking to me through it over
the phone."*

4837, or send email to
dwrightb@diamond-soft.com.

Payment Option ID field in the Build Payment
Batch window.

- Roll down payroll setup options from setup to inactive records - Now you have an option to roll down changes to inactive employee records. The options that are included in this feature include changes to pay codes, deductions, benefits, and shift codes.
- Payables checks windows renamed to reflect alternate payment options - Payables Management Checks windows have been renamed to reflect the ability to payments through credit cards, electronic funds transfers, or potentially other methods.

January 24.

If you are a top-level or mid-level manager, **GPUG Amplify** is the conference for you to gather with fellow business leaders and Microsoft leaders to network and exchange knowledge on how to best maximize Microsoft Dynamics® GP performance to achieve business success.

Attendees will have access to:

- **Earn CPE credits** and learn from product experts via three learning tracks: Reporting, Functional, and Executive Leadership
- Intimate networking opportunities with top Dynamics GP resources, including session presenters, your peers, ISV vendors and the Microsoft Dynamics GP Support team
- Discover innovations via numerous independent software vendors (ISVs) showcasing their latest solutions and creative capabilities

Recommended job roles include anyone with managerial responsibilities, such as:

- Decision-Makers
- Executives
- Controllers & IT Directors
- AP/AR Managers
