UNDERSTAND THE CONSTANTLY CHANGING WORLD OF SALES & USE TAX

The world of sales and use tax is constantly changing, and keeping up to date on your own can take a lot of time. Fortunately, our partner at Avalara has put together the *Sales & Use Tax Compliance for Dummies* ebook that can serve as a guide. This ebook will help you:

- **Know your business' tax obligations** - understand the differences between sales

SAVE TIME ENTERING CASH RECEIPTS - USE NATIONAL ACCOUNTS FOR RECEIVABLES MANAGEMENT

Microsoft Dynamics GP's National Accounts function allows users to associate multiple customers that belong to one organization (the Parent). Users can set up a link between the Parent Customer to related Child Customers in the National Accounts Setup window which will then allow them to apply payments received from a parent customer to any invoice of any child customer who is part of the national account relationship.

Here are setup instructions:

- Go to Sales module >> Cards >> National Accounts.
- In the National Account Maintenance window select the Parent Customer ID and the related Child Customer IDs.
- In the options list select the desired options. Ensure that the "**Allow Receipts Entry for Children of the National Account**" option is checked off and click "Save" to save all selections made in the window.

and use taxes and when each applies

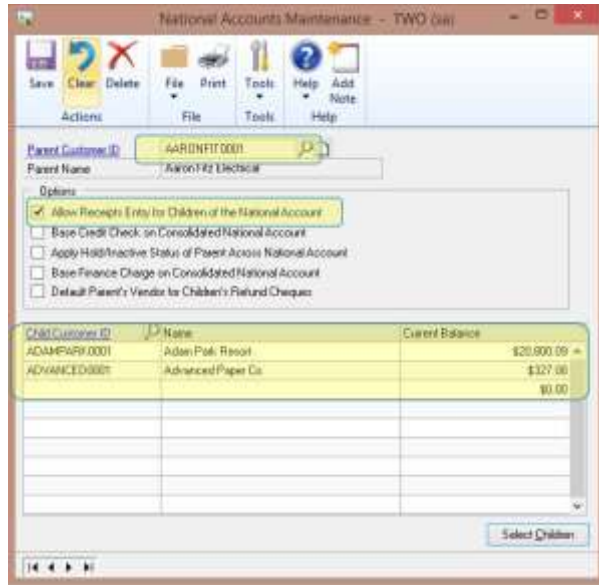

- **Determine nexus** - know when and where you need to collect tax, along with the rules associated with doing business in various states, including e-file requirements
- **Avoid an audit** - identify the facets of your business that put you at risk for an audit
- **Better manage exemption certificates** - know how to properly maintain exemption certificates to justify the amount of tax you charge

AUTOMATIC PROCEDURE TO UPDATE YOUR TEST COMPANY

If you would like your test company to be updated on a regular basis (you can decide how often this will happen), there's an automatic procedure that we can set up for you that will restore your live company backup to the test company.

Please [let us know](#) if you would like this done, and someone will get back to you shortly.
